- And new **BLOOMING MASALA TEE** (Women)

## About Sustainable Fabrics

Sustainable fabrics are some of the softest, purest, and most wearable fabrics in the industry today. Free from pesticides and substandard labor conditions, MASALA TEE's sustainable fibers give your customers comfort for their body, mind and spirit. Masala Tee is produced in ethnically sound factories.

**Organic Cotton** comes from cotton plants grown without toxic pesticides or fertilizers, and does not put its farmers in destitute poverty to produce it. Organic Cotton is produced under fair trade guidelines, and is biodegradable/compostable.

**Bamboo** fiber is created from fast growing bamboo plants which grow up to 3 feet a day. No pesticides are necessary. Bamboo is super soft, naturally UV resistant and anti-bacterial. It requires minimal manufacturing chemicals and is biodegradable.

## BLOOMING MASALA TEE COLLECTION

# BLOOMING MASALA TEE COLLECTION

# MASALA TEE INSPIRE COMMUNITY

Masala Tee is founded by expats living and working in India.

Inspired by images of India- its beauty and color, as well its extremities and vulnerabilities - Masala Tee is committed to building close relationships with the community within which we live. To fan the flame of Masala Tee, a percentage of the revenue of the Masala Tee will be donated to humanitarian organizations in India.

Enjoy your Tee!
